AUTHOR INDEX
FROM WASHINGTON INDEX
PROGRAMMING PEARLS INDEX
REPORTS AND ARTICLES INDEX
APRIL SPECIAL SECTION INDEX
COMPUTING PRACTICES INDEX
RESEARCH CONTRIBUTIONS INDEX

Entries in this Index are technical papers, short communications, award papers, educational reports, special papers, and topical articles. Algorithms are indexed separately; the "Index by Subject to Algorithms 1984" is on page 1268 of this issue.

The KEY in each entry gives the year and volume number (8427), the issue number (which is also the number of the month), and the beginning page number.

The BIBLIOGRAPHY lists the entries in order of original appearance; each entry gives the title and the name(s) of the author(s).

The AUTHOR INDEX lists the entries in order of alphabetized authors' names. If there is more than one author for a paper, each author is listed separately in alphabetical order; therefore, in this section a single entry would not include coauthors' names.

The REPORTS AND ARTICLES, COMPUTING PRACTICES, FROM WASHINGTON, and PROGRAMMING PEARLS indexes list the year's entries in these respective categories.

The APRIL SPECIAL SECTION index lists the items that appeared in this section.

The RESEARCH CONTRIBUTIONS index groups technical papers and short communications according to the departments under which they were designated.
